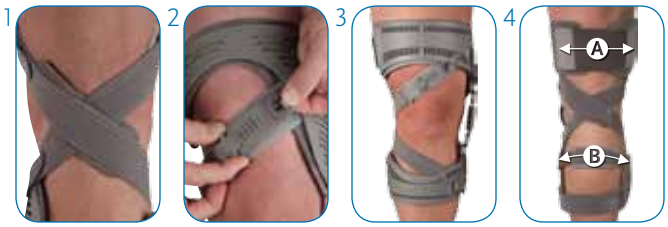
UNLOADER ONE | CUSTOM

The Unloader One® is a comfortable, lightweight, low-profile brace that provides excellent suspension and unloading leverage. Dual Dynamic Force Straps[1] combine with a streamlined, flexible upright to deliver a powerful unloading force that is easily adjusted via a Dynamic Force Control System[2]. Color-coded Quick Fit Buckles simplify application and removal, while flexible shells and breathable liners, coated with Össur Sensil® Silicone, improve comfort and reduce migration, ensuring patient compliance.

NEW Plus model[3,4] for larger patients features a wider thigh strap (A), a gastroc strap (B), and a sturdier frame and upright.

Recent research demonstrates that Unloader One reduces pain, improves function and decreases the use of pain medication:*



INDICATIONS

- Mild to severe unicompartmental osteoarthritis
- Unicompartmental knee conditions requiring load reduction, such as Articular Cartilage Defect Repair, Meniscal Cartilage Repair, Avascular Necrosis, or Tibial Plateau Fracture
- Thigh circumferences of 13.5" to 33" (34.3cm to 83.8cm) and calf circumferences of 9.8" to 24" (24.9cm to 61.5cm)
- All non-contact activities
