MODULAR III™

An extremely light-weight and durable, high energy storage and release foot. The 100% carbon fiber provides the amputees with smooth, continuous motion from heel strike to toe off.

All ages and impact levels will benefit from the unmatched 95% energy storage and return. Durable for active individuals and extremely lightweight for those less active, there is no limit to who this foot can benefit. This foot can be custom ordered for virtually any weight limit.
