UNLOADER ONE | CUSTOM

The Unloader One® is a comfortable, lightweight, low-profile brace that provides excellent suspension and unloading leverage. Dual Dynamic Force Straps combine with a streamlined, flexible upright to deliver a powerful unloading force that is easily self-adjusted via a Dynamic Force Control System. Recent research demonstrates that Unloader One reduces pain, improves function, and decreases the use of pain medication*

INDICATIONS & USAGE

- Mild to severe unicompartmental osteoarthritis
- Unicompartmental knee conditions requiring load reduction, such as Articular Cartilage Defect Repair, Meniscal Cartilage Repair, Avascular Necrosis, or Tibial Plateau Fracture
- Thigh circumferences of 13.5" to 33" (34.3cm to 83.8cm) and calf circumferences of 9.8" to 24" (24.9cm to 61.5cm)
- All non-contact activities

PRODUCT HIGHLIGHTS

- Dual Dynamic Force Straps (DFS)[1] increase unloading capabilities and prevent rotation of the brace on the leg
- Tool-free, racheting Dynamic Force Control System[2] enables self-adjustment for easier pain management
- **NEW** Plus model[3,4] for larger patients features a wider thigh strap (A), a gastroc strap (B), and a sturdier frame and upright
- Breathable liners featuring Össur Sensil® Silicone on an Aerospacer base material virtually eliminate migration
- Color-coded Quick Fit Buckles with leverage arms enable easy application and removal without cumbersome strap adjustment
- Flexible, low-profile, hinged upright contours to individual anatomy and allows use underneath clothing
- Numbered Quick Connect strapping for easy, tool-free removal, replacement and re-assembly after washing
- Lightweight frame is perforated for flexibility and ventilation
- Available in grey or black matte, or any of 12 custom paint colors for an additional fee (see colors at left)
